Applications >

Installation of WordPress

Specify the location where this web application should be installed

To provide secure access to this application, install it on a website with SSL/TLS support. Such websites have addresses starting with "https". To install the application to a directory other than the website root, specify the directory name.

Update Settings

Automatically update this app when updates are available ☒

The app will receive automatic updates to newer versions. Warning: Use this option with care because updates can significantly affect the app functionality. For example, app extensions may stop working with another version of the app.

Administrative access

These credentials will be used for administrative access to this application.

Administrative username

Administrative password Medium (?)

Confirm password

Via Plesk, l'installation est facile et ultra rapide.
